I'm a determined problem solver that is working to restart my career in development. I have recently graduated from LC101 through LaunchCode to update and enhance my technical skills after being out of the workforce to raise my children. I am energized, open-minded, and ready to learn. I have more than 8 years of experience that includes product management, maintaining a database, data analysis and reporting, and leading cross-functional teams.

PROJECT EXPERIENCE

Home Redecorating Tracker —

- Creating a web-app that allows users to track household items along with their budget for a home redecorating project.
- Home projects can be categorized and items can be viewed on a grid format to help the user better visualize items before they purchase.
- Used Java, MySQL, Spring, Hibernate, Thymeleaf, HTML, CSS, and Bootstrap.
